VERIFIED STATEMENT

Lilac Khosrowyar hereby declares as follows:

1. I am the daughter of Parviz Khosrowyar, the Applicant herein of U.S. Patent Application No. 09/655,269 for "Oxidizing Undesired Compounds Resident Within Liquid Absorbent Compounds, Reducing Atmospheric Pollution, Regenerating a Liquid Absorbent and Conserving Fuel Usage Associated With Reboiler Utilization".

2. I have just recently become aware that our patent application has been abandoned for failure to respond.

3. I now understand that an amendment filed August 11, 2004 was acted on by the Patent Office on September 1, 2004. The Advisory Action dated September 1, 2004 did not enter the prior amendment, indicating that new issues were raised that would require further consideration and/or search.

4. My father is involved with three business operations -- in the United States, Gastech Engineering Corp.; in the U.K., Gastech International; and in India, Gastech Process Engineering Pvt. Ltd. On August 8, 2004, my father left the country and has not returned since that time. With various financial and other problems, neither he nor anyone else attended to matters regarding this patent application. Recently I became involved in the U.S. business operation which is how I became familiar with the patent application.

5. The entire delay in filing the required reply from the due date for the reply until the filing of the accompanying petition was unintentional.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this application or any patent issued thereon.
